# SOME THINGS STAY HOT LONGER.

It's no accident that our products have stood the test of time to be the highest quality in both durability and thermal performance.

Now, we've made our timeless Classic vacuum bottles even better.

How? We asked. We listened. We went back to the drawing board and discovered that we can improve on a classic.

**REDISCOVERED SINCE 1913.**

Classic  
SERIES

## THE GREENPRINT REINVENTING A CLASSIC

### 1 BIGGER.

We asked and heard from our customers that more is better. That's why we engineered the new bottles to hold more by expanding the inner lining without changing the original form.

### 2 STRONGER.

What? Yes, by expanding that inner lining, it also made it more durable. Drop it, kick it, or have it fly out of a moving vehicle – it will hold up and the contents will stay hot.

### 3 BETTER.

Now dishwasher safe, improved flow stopper and new easy-grip handle with comfort overmold. The devil's in the details.

Classic  
SERIES

## TIMELESS + DURABLE

Built like a battleship and marked by classic Hammertone green, the legendary Stanley Classic Series is the choice of generations from the outdoors to the job sites.

### CLASSIC SERIES FEATURES + COLOR SYSTEM

This series features 18/8 stainless steel double-wall vacuum insulation, naturally BPA-free, with a wide range of dishwasher safe, leakproof, and car-cup compatible products.

Master  
SERIES

## ULTIMATE + UNRIVALED

For the pro's pro, the toughest of the tough and those who demand the very best, our Master Series offers unrivaled durability and thermal retention. A century of know-how meets state-of-the-art in every detail.

### MASTER SERIES FEATURES

QUADVAC™ insulation with 1.0mm - 18/8 stainless steel double-wall vacuum insulation, naturally BPA-free, and all dishwasher safe. This series includes a wide range of leakproof, packable, and car-cup compatible products.

FOUNDRY BLACK

## QUADVAC™ TECHNOLOGY

**Adds a double layer barrier to double wall vacuum insulation.**

The four layers add protection from convective, conductive and radiant energy transfer. QuadVac™ insulation locks in heat or cold better than any other technology out there.

### MASTER VACUUM BOTTLE

- ▶ 1.0mm 18/8 stainless steel QuadVac™ insulation, naturally BPA-free
